Chapter 2

Log format

Actions

- Add difficult word
- Remove difficult word

Profile	Marker	TimeStamp	Action	Value
child1	teacher1	2013-06-14	ADD	cat
child1	child1	2013-06-14	REMOVE	cat

Chapter 3

About

This document was generated using Doxygen from a number of (mainly) stub classes.

The documentation is published in the iLearnRW git repository. Currently located in the `playground/Data-Logger` directory.

To be able to build the documentation the following is required:

- Doxygen
- Latex
- Graphviz

Chapter 4

Namespace Documentation

4.1 Package ilearnrw

Packages

- package datalogger

  DataLogger package.
- package prototype
- package user

4.2 Package ilearnrw.datalogger

DataLogger package.

Classes

- interface IDataLogger
- interface ILoginProvider
- interface IProfileAccessUpdater

  Interface to update profiles in the iLearnRW system.
- class ProfileAccessUpdater

4.2.1 Detailed Description

DataLogger package.

Note

Exactly what package the IProfileAccessUpdater should be part of is still unknown.

4.3 Package ilearnrw.prototype

Packages

- package application

4.4 Package ilearnrw.prototype.application

Classes

- class program

4.5 Package ilearnrw.user

Classes

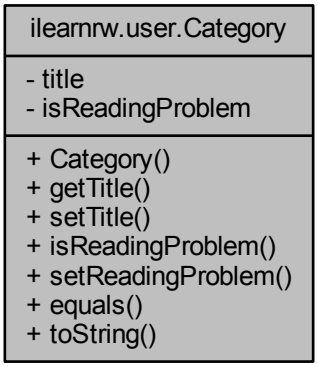
- class Category
- enum GameAction
- class IlearnException
- enum LanguageCode
- class ProblemDefinition
- class ProblemDefinitionIndex
- class Subcategory
- class Tester
- class User
- class UserAction
- class UserDetails
- class UserPreferences
- class UserProblem
- class UserProblemsList
- class UserProfile
- class UserSession

Chapter 5

Class Documentation

5.1 ilearnrw.user.Category Class Reference

Collaboration diagram for ilearnrw.user.Category:



Public Member Functions

- Category (String title, boolean isReadingProblem)
- String getTitle ()
- void setTitle (String title)
- boolean isReadingProblem ()
- void setReadingProblem (boolean isReadingProblem)
- boolean equals (Object obj)
- String toString ()

Private Attributes

- String title
- boolean isReadingProblem

5.1.1 Constructor & Destructor Documentation

5.1.1.1 ilearnrw.user.Category.Category (String *title,* boolean *isReadingProblem*)

References ilearnrw.user.Category.isReadingProblem(), and ilearnrw.user.Category.title.

Referenced by ilearnrw.user.Category.equals().

5.1.2 Member Function Documentation

5.1.2.1 boolean ilearnrw.user.Category.equals (Object *obj*)

References ilearnrw.user.Category.Category(), ilearnrw.user.Category.getTitle(), and ilearnrw.user.Category.title.

5.1.2.2 String ilearnrw.user.Category.getTitle ( )

References ilearnrw.user.Category.title.

Referenced by ilearnrw.user.Category.equals(), and ilearnrw.user.Subcategory.equals().

5.1.2.3 boolean ilearnrw.user.Category.isReadingProblem ( )

Referenced by ilearnrw.user.Category.Category(), ilearnrw.user.Category.setReadingProblem(), and ilearnrw.user.-Category.toString().

5.1.2.4 void ilearnrw.user.Category.setReadingProblem (boolean *isReadingProblem*)

References ilearnrw.user.Category.isReadingProblem().

5.1.2.5 void ilearnrw.user.Category.setTitle (String *title*)

References ilearnrw.user.Category.title.

5.1.2.6 String ilearnrw.user.Category.toString ( )

References ilearnrw.user.Category.isReadingProblem(), and ilearnrw.user.Category.title.

5.1.3 Member Data Documentation

5.1.3.1 boolean ilearnrw.user.Category.isReadingProblem [private]

5.1.3.2 String ilearnrw.user.Category.title [private]

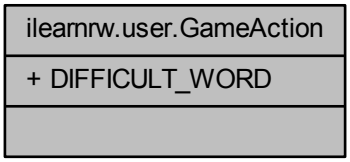
Referenced by ilearnrw.user.Category.Category(), ilearnrw.user.Category.equals(), ilearnrw.user.Category.get-Title(), ilearnrw.user.Category.setTitle(), and ilearnrw.user.Category.toString().

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/Category.java

5.2 ilearnrw.user.GameAction Enum Reference

Collaboration diagram for ilearnrw.user.GameAction:



Public Attributes

- DIFFICULT_WORD

5.2.1 Member Data Documentation

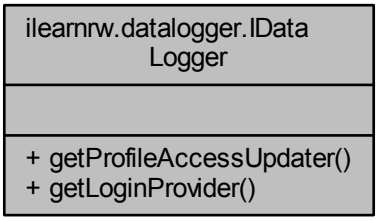
5.2.1.1 ilearnrw.user.GameAction.DIFFICULT_WORD

The documentation for this enum was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/GameAction.java

5.3 ilearnrw.datalogger.IDataLogger Interface Reference

Collaboration diagram for ilearnrw.datalogger.IDataLogger:



Public Member Functions

- IProfileAccessUpdater getProfileAccessUpdater ()
- ILoginProvider getLoginProvider ()

5.3.1 Member Function Documentation

5.3.1.1 ILoginProvider ilearnrw.datalogger.IDataLogger.getLoginProvider ( )

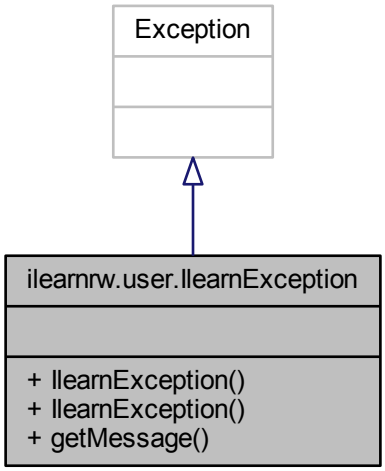
5.3.1.2 IProfileAccessUpdater ilearnrw.datalogger.IDataLogger.getProfileAccessUpdater ( )

The documentation for this interface was generated from the following file:

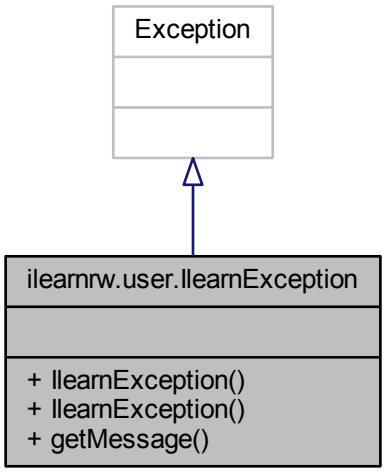
- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/datalogger/IDataLogger.java

5.4 ilearnrw.user.IlearnException Class Reference

Inheritance diagram for ilearnrw.user.IlearnException:



Collaboration diagram for ilearnrw.user.IlearnException:



Public Member Functions

- IlearnException (String message)
- IlearnException (String message, Throwable throwable)
- String getMessage ()

5.4.1 Constructor & Destructor Documentation

5.4.1.1 ilearnrw.user.IlearnException.IlearnException (String *message*)

5.4.1.2 ilearnrw.user.IlearnException.IlearnException (String *message,* Throwable *throwable*)

5.4.2 Member Function Documentation

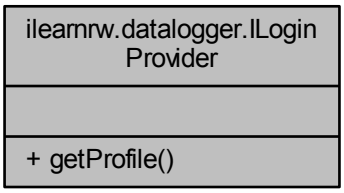
5.4.2.1 String ilearnrw.user.IlearnException.getMessage ( )

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/IlearnException.java

5.5 ilearnrw.datalogger.ILoginProvider Interface Reference

Collaboration diagram for ilearnrw.datalogger.ILoginProvider:



Public Member Functions

- UserProfile getProfile (String UserName, String Password)

  Authenticates a User.

5.5.1 Member Function Documentation

5.5.1.1 UserProfile ilearnrw.datalogger.ILoginProvider.getProfile (String *UserName,* String *Password*)

Authenticates a User.

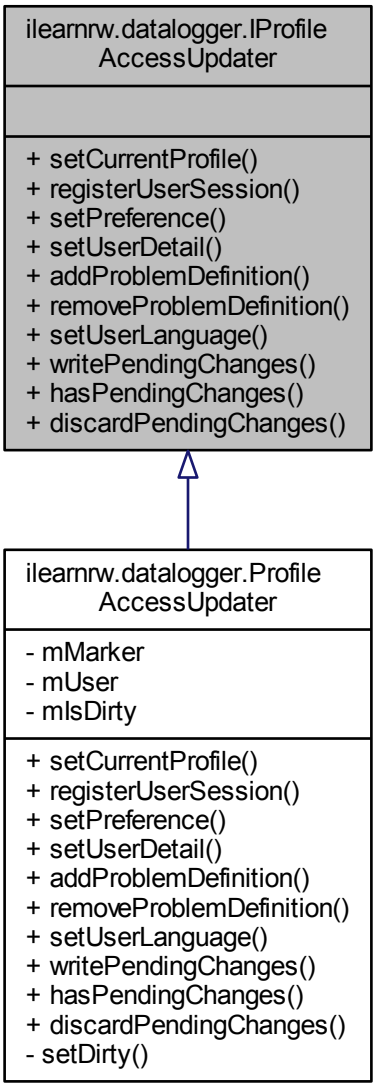
The documentation for this interface was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/datalogger/ILoginProider.java

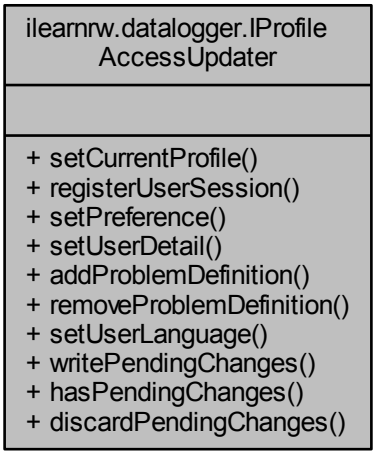
5.6 ilearnrw.datalogger.IProfileAccessUpdater Interface Reference

Interface to update profiles in the iLearnRW system.

Inheritance diagram for ilearnrw.datalogger.IProfileAccessUpdater:



Collaboration diagram for ilearnrw.datalogger.IProfileAccessUpdater:



Classes

- class PendingChangesAvailable

  Indicates that an action cannot be performed due to pending changes.
- class PermissionException

  The marker does not have permission to perform the requested change.

Public Member Functions

- boolean setCurrentProfile (UserProfile profile, UserProfile markerProfile) throws PermissionException, PendingChangesAvailable

  Sets the userprofile to work with and who will be the `marker` *for the changes.*
- boolean registerUserSession (UserSession session)

  Registers a new User session in the log.
- boolean setPreference (UserPreferences preferences)

  Registers a change to the users preferences.
- boolean setUserDetail (UserDetails userDetails)

  Updates a UserDetail.
- boolean addProblemDefinition (String URI)

  Adds a predefined ProblemDefinition to the user profile.
- boolean removeProblemDefinition (String URI)

  Removes a ProblemDefinition.
- boolean setUserLanguage (LanguageCode Language)

  Sets the userlanguage.
- UserProfile writePendingChanges ()

  Writes unwritten changes to the back end (persistent storage).
- boolean hasPendingChanges ()

  Checks if there are any changes pending.
- boolean discardPendingChanges ()

  Discards all pending changes.

5.6.1 Detailed Description

Interface to update profiles in the iLearnRW system.

This interface assumes that `Apps` would get a read-only copy of the users profile and would then have to use this interface to make changes to the profile. When the profile has been updated a new readonly copy would have to be fetched.

A nice side-effect is that we can make sure to log all changes to the profile.

Updater also manages

Registry - Handles/stores users/profiles.

UserAdd/delete etc.. Get user (given userid, password)

5.6.2 Member Function Documentation

5.6.2.1 boolean ilearnrw.datalogger.IProfileAccessUpdater.addProblemDefinition (String *URI*)

Adds a predefined ProblemDefinition to the user profile.

Implemented in ilearnrw.datalogger.ProfileAccessUpdater.

5.6.2.2 boolean ilearnrw.datalogger.IProfileAccessUpdater.discardPendingChanges ( )

Discards all pending changes.

Implemented in ilearnrw.datalogger.ProfileAccessUpdater.

5.6.2.3 boolean ilearnrw.datalogger.IProfileAccessUpdater.hasPendingChanges ( )

Checks if there are any changes pending.

Implemented in ilearnrw.datalogger.ProfileAccessUpdater.

5.6.2.4 boolean ilearnrw.datalogger.IProfileAccessUpdater.registerUserSession (UserSession *session*)

Registers a new User session in the log.

Implemented in ilearnrw.datalogger.ProfileAccessUpdater.

5.6.2.5 boolean ilearnrw.datalogger.IProfileAccessUpdater.removeProblemDefinition (String *URI*)

Removes a ProblemDefinition.

Implemented in ilearnrw.datalogger.ProfileAccessUpdater.

5.6.2.6 boolean ilearnrw.datalogger.IProfileAccessUpdater.setCurrentProfile (UserProfile *profile*, UserProfile *markerProfile*) throws PermissionException, PendingChangesAvailable

Sets the userprofile to work with and who will be the `marker` for the changes.

Doing this once saves the application from passing the userprofile to all functions.

The `marker` can be the same as the profile to be edited.

Exceptions

PermissionException	Thrown when the admin profile does not have permissions to update the profile.
PendingChangesAvailable	Thrown when there are pending changes are available.

Parameters

profile	Profile of the user to update
markerProfile	Profile of the user who is doing the update

Implemented in ilearnrw.datalogger.ProfileAccessUpdater.

5.6.2.7 boolean ilearnrw.datalogger.IProfileAccessUpdater.setPreference (UserPreferences *preferences*)

Registers a change to the users preferences.

Should changes to user preferences be logged so that teachers/experts can be notified/see that a preference has been changed?

Implemented in ilearnrw.datalogger.ProfileAccessUpdater.

5.6.2.8 boolean ilearnrw.datalogger.IProfileAccessUpdater.setUserDetail (UserDetails *userDetails*)

Updates a UserDetail.

Implemented in ilearnrw.datalogger.ProfileAccessUpdater.

5.6.2.9 boolean ilearnrw.datalogger.IProfileAccessUpdater.setUserLanguage (LanguageCode *Language*)

Sets the userlanguage.

Implemented in ilearnrw.datalogger.ProfileAccessUpdater.

5.6.2.10 UserProfile ilearnrw.datalogger.IProfileAccessUpdater.writePendingChanges ( )

Writes unwritten changes to the back end (persistent storage).

This will flush all pending operations in the same order as they are added. This is important if for example the same preference is set twice.

Returns

The new profile after the changes has been applied.

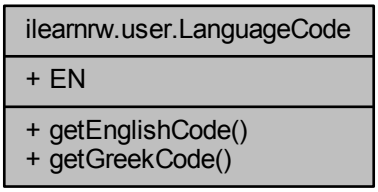
Implemented in ilearnrw.datalogger.ProfileAccessUpdater.

The documentation for this interface was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/datalogger/IProfileAccessUpdater.java

5.7 ilearnrw.user.LanguageCode Enum Reference

Collaboration diagram for ilearnrw.user.LanguageCode:



Static Public Member Functions

- static byte getEnglishCode ()
- static byte getGreekCode ()

Public Attributes

- EN

5.7.1 Member Function Documentation

5.7.1.1 static byte ilearnrw.user.LanguageCode.getEnglishCode ( ) [static]

Referenced by ilearnrw.user.UserDetails.setLanguage().

5.7.1.2 static byte ilearnrw.user.LanguageCode.getGreekCode ( ) [static]

5.7.2 Member Data Documentation

5.7.2.1 ilearnrw.user.LanguageCode.EN

Referenced by ilearnrw.user.UserProblemsList.loadProblems(), ilearnrw.user.UserDetails.setLanguage(), and ilearnrw.user.UserProfile.UserProfile().

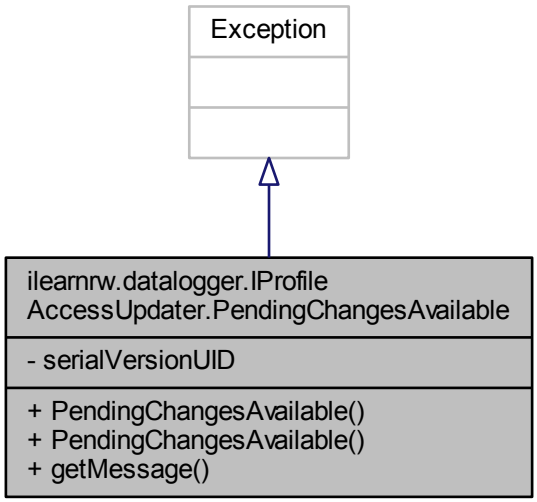
The documentation for this enum was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/LanguageCode.java

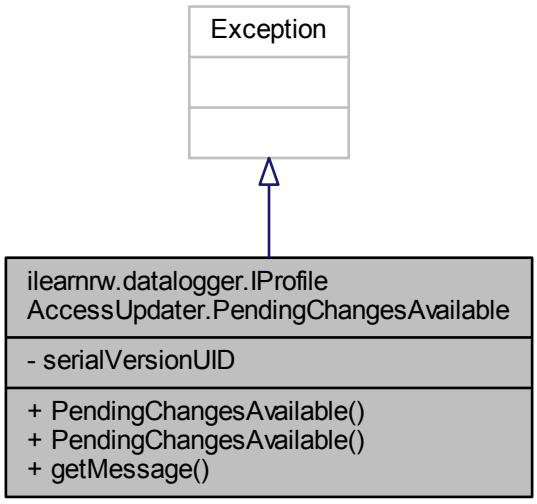
5.8 ilearnrw.datalogger.IProfileAccessUpdater.PendingChangesAvailable Class Reference

Indicates that an action cannot be performed due to pending changes.

Inheritance diagram for ilearnrw.datalogger.IProfileAccessUpdater.PendingChangesAvailable:



Collaboration diagram for ilearnrw.datalogger.IProfileAccessUpdater.PendingChangesAvailable:



Public Member Functions

- PendingChangesAvailable (String message)
- PendingChangesAvailable (String message, Throwable throwable)
- String getMessage ()

Static Private Attributes

- static final long serialVersionUID = 1L

5.8.1 Detailed Description

Indicates that an action cannot be performed due to pending changes.

If the action was to be performed the pending changes would be lost.

5.8.2 Constructor & Destructor Documentation

5.8.2.1 ilearnrw.datalogger.IProfileAccessUpdater.PendingChangesAvailable.PendingChangesAvailable (String *message*)

5.8.2.2 ilearnrw.datalogger.IProfileAccessUpdater.PendingChangesAvailable.PendingChangesAvailable (String *message,* Throwable *throwable*)

5.8.3 Member Function Documentation

5.8.3.1 String ilearnrw.datalogger.IProfileAccessUpdater.PendingChangesAvailable.getMessage ( )

5.8.4 Member Data Documentation

5.8.4.1 final long ilearnrw.datalogger.IProfileAccessUpdater.PendingChangesAvailable.serialVersionUID = 1L [static], [private]

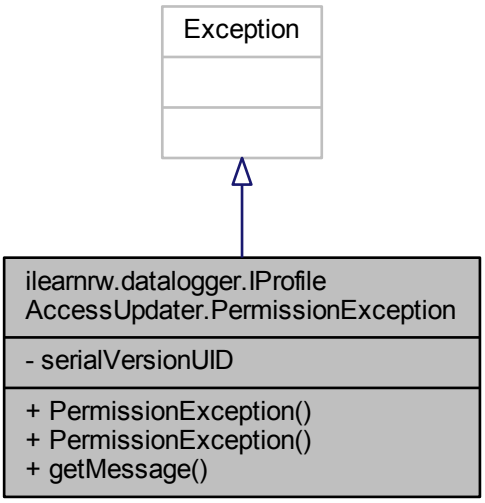
The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/datalogger/IProfileAccessUpdater.java

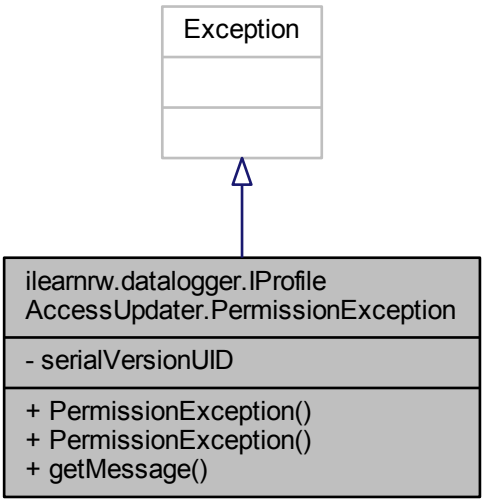
5.9 ilearnrw.datalogger.IProfileAccessUpdater.PermissionException Class Reference

The marker does not have permission to perform the requested change.

Inheritance diagram for ilearnrw.datalogger.IProfileAccessUpdater.PermissionException:



Collaboration diagram for ilearnrw.datalogger.IProfileAccessUpdater.PermissionException:



Public Member Functions

- PermissionException (String message)
- PermissionException (String message, Throwable throwable)
- String getMessage ()

Static Private Attributes

- static final long serialVersionUID = 1L

5.9.1 Detailed Description

The marker does not have permission to perform the requested change.

5.9.2 Constructor & Destructor Documentation

5.9.2.1 ilearnrw.datalogger.IProfileAccessUpdater.PermissionException.PermissionException (String *message*)

5.9.2.2 ilearnrw.datalogger.IProfileAccessUpdater.PermissionException.PermissionException (String *message,* Throwable *throwable*)

5.9.3 Member Function Documentation

5.9.3.1 String ilearnrw.datalogger.IProfileAccessUpdater.PermissionException.getMessage ( )

5.9.4 Member Data Documentation

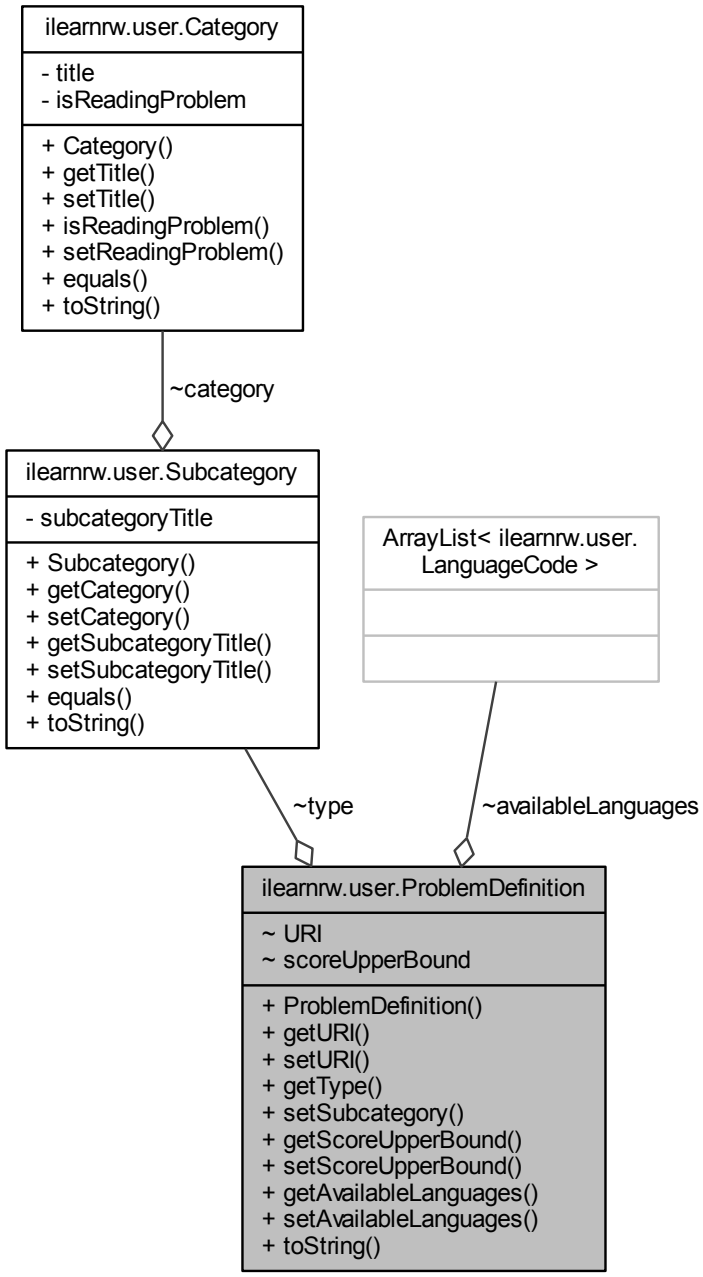
5.9.4.1 final long ilearnrw.datalogger.IProfileAccessUpdater.PermissionException.serialVersionUID = 1L [static], [private]

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/datalogger/IProfileAccessUpdater.java

5.10 ilearnrw.user.ProblemDefinition Class Reference

Collaboration diagram for ilearnrw.user.ProblemDefinition:



Public Member Functions

- ProblemDefinition (String URI, Subcategory type, int scoreUpperBound, ArrayList< LanguageCode > availableLanguages)
- String getURI ()

- void setURI (String uRI)
- Subcategory getType ()
- void setSubcategory (Subcategory type)
- int getScoreUpperBound ()
- void setScoreUpperBound (int scoreUpperBound)
- ArrayList< LanguageCode > getAvailableLanguages ()
- void setAvailableLanguages (ArrayList< LanguageCode > availableLanguages)
- String toString ()

Package Attributes

- String URI
- Subcategory type
- int scoreUpperBound
- ArrayList< LanguageCode > availableLanguages

5.10.1 Constructor & Destructor Documentation

5.10.1.1 ilearnrw.user.ProblemDefinition.ProblemDefinition (String *URI,* Subcategory *type,* int *scoreUpperBound,* ArrayList< LanguageCode > *availableLanguages*)

References ilearnrw.user.ProblemDefinition.availableLanguages, ilearnrw.user.ProblemDefinition.scoreUpperBound, ilearnrw.user.ProblemDefinition.type, and ilearnrw.user.ProblemDefinition.URI.

5.10.2 Member Function Documentation

5.10.2.1 ArrayList<LanguageCode> ilearnrw.user.ProblemDefinition.getAvailableLanguages ( )

References ilearnrw.user.ProblemDefinition.availableLanguages.

Referenced by ilearnrw.user.UserProblemsList.loadProblems().

5.10.2.2 int ilearnrw.user.ProblemDefinition.getScoreUpperBound ( )

References ilearnrw.user.ProblemDefinition.scoreUpperBound.

Referenced by ilearnrw.user.UserProblem.UserProblem().

5.10.2.3 Subcategory ilearnrw.user.ProblemDefinition.getType ( )

References ilearnrw.user.ProblemDefinition.type.

5.10.2.4 String ilearnrw.user.ProblemDefinition.getURI ( )

References ilearnrw.user.ProblemDefinition.URI.

5.10.2.5 void ilearnrw.user.ProblemDefinition.setAvailableLanguages (ArrayList< LanguageCode > *availableLanguages*)

References ilearnrw.user.ProblemDefinition.availableLanguages.

5.10.2.6 void ilearnrw.user.ProblemDefinition.setScoreUpperBound (int *scoreUpperBound*)

References ilearnrw.user.ProblemDefinition.scoreUpperBound.

5.10.2.7 void ilearnrw.user.ProblemDefinition.setSubcategory (Subcategory *type*)

References ilearnrw.user.ProblemDefinition.type.

5.10.2.8 void ilearnrw.user.ProblemDefinition.setURI (String *uRI*)

References ilearnrw.user.ProblemDefinition.URI.

5.10.2.9 String ilearnrw.user.ProblemDefinition.toString ( )

References ilearnrw.user.ProblemDefinition.availableLanguages, ilearnrw.user.ProblemDefinition.scoreUpperBound, ilearnrw.user.ProblemDefinition.type, and ilearnrw.user.ProblemDefinition.URI.

5.10.3 Member Data Documentation

5.10.3.1 ArrayList<LanguageCode> ilearnrw.user.ProblemDefinition.availableLanguages [package]

Referenced by ilearnrw.user.ProblemDefinition.getAvailableLanguages(), ilearnrw.user.ProblemDefinition.ProblemDefinition(), ilearnrw.user.ProblemDefinition.setAvailableLanguages(), and ilearnrw.user.ProblemDefinition.toString().

5.10.3.2 int ilearnrw.user.ProblemDefinition.scoreUpperBound [package]

Referenced by ilearnrw.user.ProblemDefinition.getScoreUpperBound(), ilearnrw.user.ProblemDefinition.ProblemDefinition(), ilearnrw.user.ProblemDefinition.setScoreUpperBound(), and ilearnrw.user.ProblemDefinition.toString().

5.10.3.3 Subcategory ilearnrw.user.ProblemDefinition.type [package]

Referenced by ilearnrw.user.ProblemDefinition.getType(), ilearnrw.user.ProblemDefinition.ProblemDefinition(), ilearnrw.user.ProblemDefinition.setSubcategory(), and ilearnrw.user.ProblemDefinition.toString().

5.10.3.4 String ilearnrw.user.ProblemDefinition.URI [package]

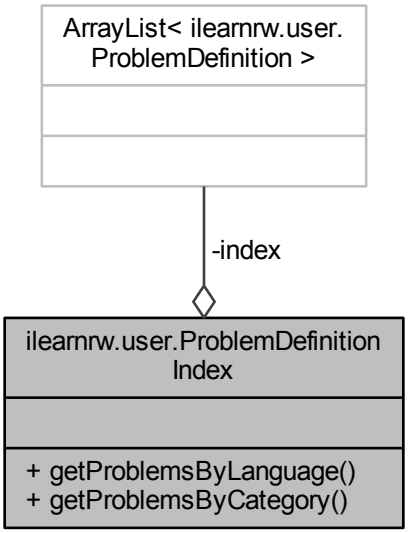
Referenced by ilearnrw.user.ProblemDefinition.getURI(), ilearnrw.user.ProblemDefinition.ProblemDefinition(), ilearnrw.user.ProblemDefinition.setURI(), and ilearnrw.user.ProblemDefinition.toString().

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/ProblemDefinition.java

5.11 ilearnrw.user.ProblemDefinitionIndex Class Reference

Collaboration diagram for ilearnrw.user.ProblemDefinitionIndex:



Public Member Functions

- ArrayList< ProblemDefinition > getProblemsByLanguage (LanguageCode x)
- ArrayList< ProblemDefinition > getProblemsByCategory (Category x)

Private Attributes

- ArrayList< ProblemDefinition > index

5.11.1 Member Function Documentation

5.11.1.1 ArrayList<ProblemDefinition> ilearnrw.user.ProblemDefinitionIndex.getProblemsByCategory (Category *x*)

References ilearnrw.user.ProblemDefinitionIndex.index.

5.11.1.2 ArrayList<ProblemDefinition> ilearnrw.user.ProblemDefinitionIndex.getProblemsByLanguage (LanguageCode *x*)

References ilearnrw.user.ProblemDefinitionIndex.index.

5.11.2 Member Data Documentation

5.11.2.1 ArrayList<ProblemDefinition> ilearnrw.user.ProblemDefinitionIndex.index [private]

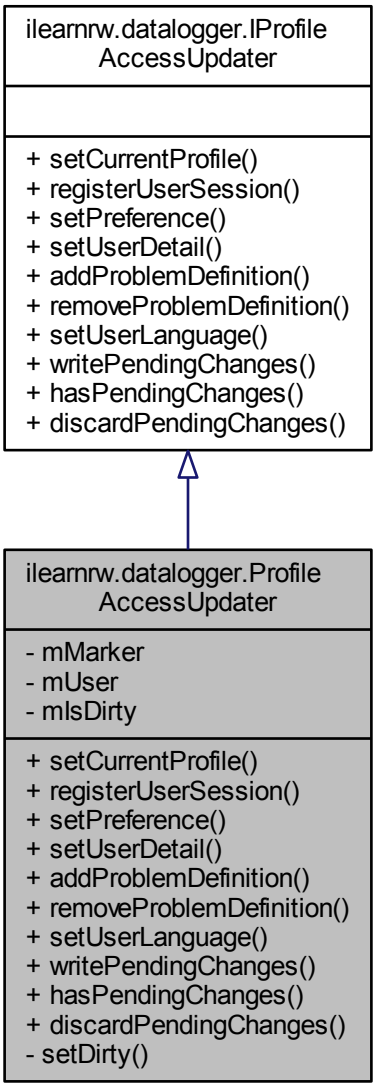
Referenced by ilearnrw.user.ProblemDefinitionIndex.getProblemsByCategory(), and ilearnrw.user.ProblemDefinitionIndex.getProblemsByLanguage().

The documentation for this class was generated from the following file:

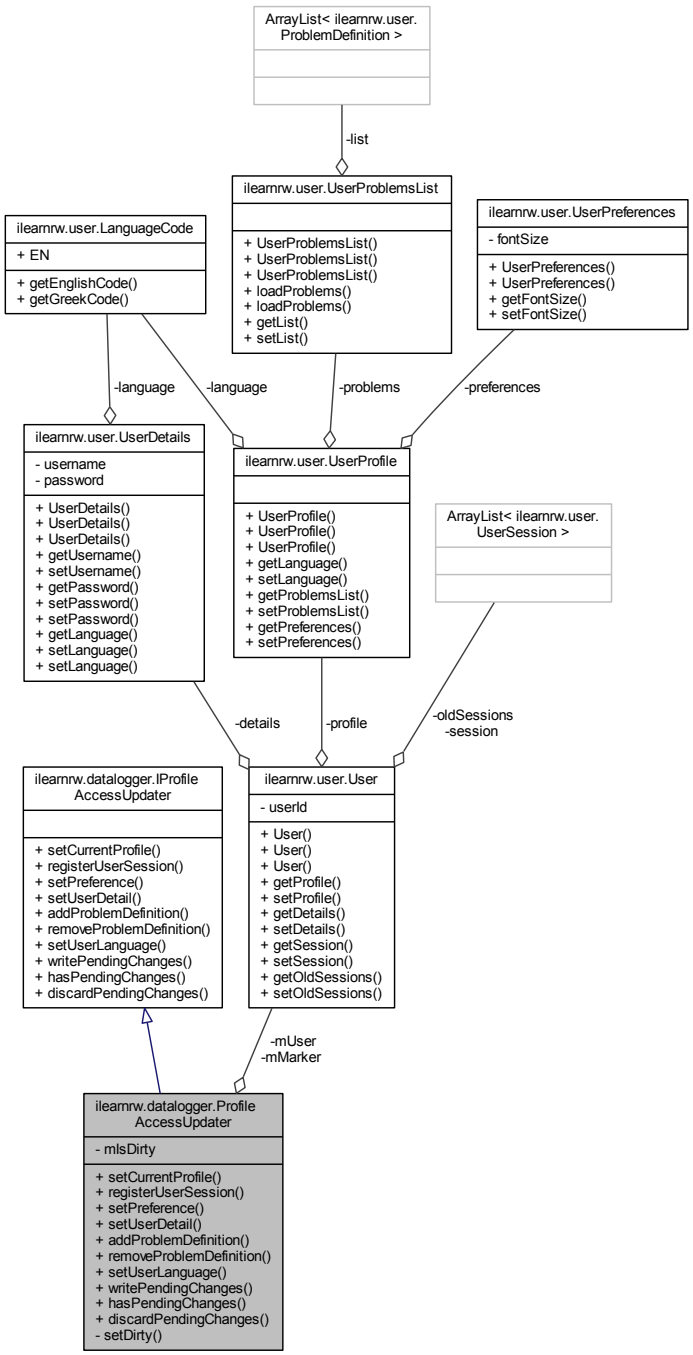
- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/ProblemDefinitionIndex.java

5.12 ilearnrw.datalogger.ProfileAccessUpdater Class Reference

Inheritance diagram for ilearnrw.datalogger.ProfileAccessUpdater:



Collaboration diagram for ilearnrw.datalogger.ProfileAccessUpdater:



Public Member Functions

- boolean setCurrentProfile (UserProfile profile, UserProfile markerProfile) throws PermissionException, -PendingChangesAvailable

  Sets the userprofile to work with and who will be the `marker` *for the changes.*

- boolean registerUserSession (UserSession session)

  Registers a new User session in the log.

- boolean setPreference (UserPreferences pref)

  Registers a change to the users preferences.
- boolean setUserDetail (UserDetails userDetails)

  Updates a UserDetail.
- boolean addProblemDefinition (String URI)

  Adds a predefined ProblemDefinition to the user profile.
- boolean removeProblemDefinition (String URI)

  Removes a ProblemDefinition.
- boolean setUserLanguage (LanguageCode Language)

  Sets the userlanguage.
- UserProfile writePendingChanges ()

  Writes unwritten changes to the back end (persistent storage).
- boolean hasPendingChanges ()

  Checks if there are any changes pending.
- boolean discardPendingChanges ()

  Discards all pending changes.

Private Member Functions

- void setDirty ()

Private Attributes

- User mMarker

  The currently selected marker profile.
- User mUser

  The profile to be updated.
- boolean mIsDirty

  Access to storage-backend.

5.12.1 Detailed Description

Note

This class currently does not make use of the potential to log every action and the marker.

5.12.2 Member Function Documentation

5.12.2.1 boolean ilearnrw.datalogger.ProfileAccessUpdater.addProblemDefinition (String *URI*)

Adds a predefined ProblemDefinition to the user profile.

Implements ilearnrw.datalogger.IProfileAccessUpdater.

5.12.2.2 boolean ilearnrw.datalogger.ProfileAccessUpdater.discardPendingChanges ( )

Discards all pending changes.

Implements ilearnrw.datalogger.IProfileAccessUpdater.

5.12.2.3 boolean ilearnrw.datalogger.ProfileAccessUpdater.hasPendingChanges ( )

Checks if there are any changes pending.

Implements ilearnrw.datalogger.IProfileAccessUpdater.

5.12.2.4 boolean ilearnrw.datalogger.ProfileAccessUpdater.registerUserSession (UserSession *session*)

Registers a new User session in the log.

Implements ilearnrw.datalogger.IProfileAccessUpdater.

5.12.2.5 boolean ilearnrw.datalogger.ProfileAccessUpdater.removeProblemDefinition (String *URI*)

Removes a ProblemDefinition.

Implements ilearnrw.datalogger.IProfileAccessUpdater.

5.12.2.6 boolean ilearnrw.datalogger.ProfileAccessUpdater.setCurrentProfile (UserProfile *profile,* UserProfile *markerProfile*) throws PermissionException, PendingChangesAvailable

Sets the userprofile to work with and who will be the `marker` for the changes.

Doing this once saves the application from passing the userprofile to all functions.

The `marker` can be the same as the profile to be edited.

Exceptions

PermissionException	Thrown when the admin profile does not have permissions to update the profile.
PendingChangesAvailable	Thrown when there are pending changes are available.

Implements ilearnrw.datalogger.IProfileAccessUpdater.

5.12.2.7 void ilearnrw.datalogger.ProfileAccessUpdater.setDirty ( ) [private]

References ilearnrw.datalogger.ProfileAccessUpdater.mIsDirty.

Referenced by ilearnrw.datalogger.ProfileAccessUpdater.setPreference().

5.12.2.8 boolean ilearnrw.datalogger.ProfileAccessUpdater.setPreference (UserPreferences *preferences*)

Registers a change to the users preferences.

Should changes to user preferences be logged so that teachers/experts can be notified/see that a preference has been changed?

Implements ilearnrw.datalogger.IProfileAccessUpdater.

References ilearnrw.datalogger.ProfileAccessUpdater.setDirty().

5.12.2.9 boolean ilearnrw.datalogger.ProfileAccessUpdater.setUserDetail (UserDetails *userDetails*)

Updates a UserDetail.

Implements ilearnrw.datalogger.IProfileAccessUpdater.

5.12.2.10 boolean ilearnrw.datalogger.ProfileAccessUpdater.setUserLanguage (LanguageCode *Language*)

Sets the userlanguage.

Implements ilearnrw.datalogger.IProfileAccessUpdater.

5.12.2.11 UserProfile ilearnrw.datalogger.ProfileAccessUpdater.writePendingChanges ( )

Writes unwritten changes to the back end (persistent storage).

This will flush all pending operations in the same order as they are added. This is important if for example the same preference is set twice.

Returns

The new profile after the changes has been applied.

Implements ilearnrw.datalogger.IProfileAccessUpdater.

References ilearnrw.user.User.getProfile(), and ilearnrw.datalogger.ProfileAccessUpdater.mUser.

5.12.3 Member Data Documentation

5.12.3.1 boolean ilearnrw.datalogger.ProfileAccessUpdater.mIsDirty [private]

Access to storage-backend.

Referenced by ilearnrw.datalogger.ProfileAccessUpdater.setDirty().

5.12.3.2 User ilearnrw.datalogger.ProfileAccessUpdater.mMarker [private]

The currently selected marker profile.

The marker profile is used to show who made a certain change/log in the system

5.12.3.3 User ilearnrw.datalogger.ProfileAccessUpdater.mUser [private]

The profile to be updated.

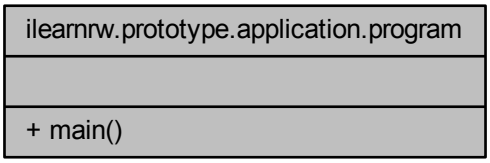
Referenced by ilearnrw.datalogger.ProfileAccessUpdater.writePendingChanges().

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/datalogger/ProfileAccessUpdater.java

5.13 ilearnrw.prototype.application.program Class Reference

Collaboration diagram for ilearnrw.prototype.application.program:



Static Public Member Functions

- static void main (String[] args)

5.13.1 Member Function Documentation

5.13.1.1 static void ilearnrw.prototype.application.program.main (String[] *args*) [static]

Parameters

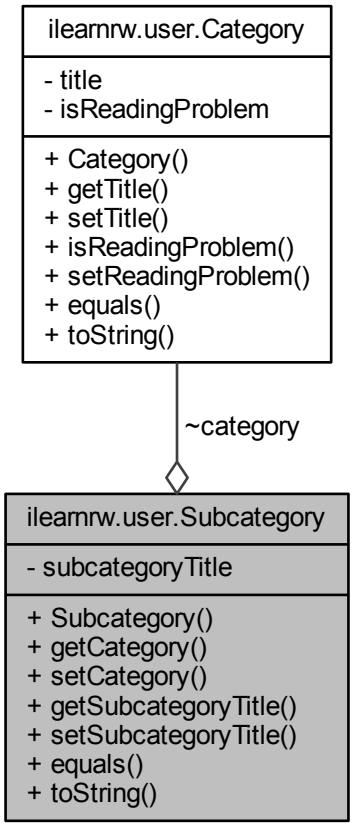
args	

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/prototype/application/program.java

5.14 ilearnrw.user.Subcategory Class Reference

Collaboration diagram for ilearnrw.user.Subcategory:



Public Member Functions

- Subcategory (String subcategoryTitle, Category category)
- Category getCategory ()
- void setCategory (Category category)
- String getSubcategoryTitle ()
- void setSubcategoryTitle (String subcategoryTitle)
- boolean equals (Object obj)
- String toString ()

Package Attributes

- Category category

Private Attributes

- String subcategoryTitle

5.14.1 Constructor & Destructor Documentation

5.14.1.1 ilearnrw.user.Subcategory.Subcategory (String *subcategoryTitle,* Category *category*)

References ilearnrw.user.Subcategory.category, and ilearnrw.user.Subcategory.subcategoryTitle.

Referenced by ilearnrw.user.Subcategory.equals().

5.14.2 Member Function Documentation

5.14.2.1 boolean ilearnrw.user.Subcategory.equals (Object *obj*)

References ilearnrw.user.Subcategory.category, ilearnrw.user.Subcategory.getCategory(), ilearnrw.user.Subcategory.getSubcategoryTitle(), ilearnrw.user.Category.getTitle(), ilearnrw.user.Subcategory.Subcategory(), and ilearnrw.user.Subcategory.subcategoryTitle.

5.14.2.2 Category ilearnrw.user.Subcategory.getCategory ( )

References ilearnrw.user.Subcategory.category.

Referenced by ilearnrw.user.Subcategory.equals().

5.14.2.3 String ilearnrw.user.Subcategory.getSubcategoryTitle ( )

References ilearnrw.user.Subcategory.subcategoryTitle.

Referenced by ilearnrw.user.Subcategory.equals().

5.14.2.4 void ilearnrw.user.Subcategory.setCategory (Category *category*)

References ilearnrw.user.Subcategory.category.

5.14.2.5 void ilearnrw.user.Subcategory.setSubcategoryTitle (String *subcategoryTitle*)

References ilearnrw.user.Subcategory.subcategoryTitle.

5.14.2.6 String ilearnrw.user.Subcategory.toString ( )

References ilearnrw.user.Subcategory.category, and ilearnrw.user.Subcategory.subcategoryTitle.

5.14.3 Member Data Documentation

5.14.3.1 Category ilearnrw.user.Subcategory.category [package]

Referenced by ilearnrw.user.Subcategory.equals(), ilearnrw.user.Subcategory.getCategory(), ilearnrw.user.Subcategory.setCategory(), ilearnrw.user.Subcategory.Subcategory(), and ilearnrw.user.Subcategory.toString().

5.14.3.2 String ilearnrw.user.Subcategory.subcategoryTitle [private]

Referenced by ilearnrw.user.Subcategory.equals(), ilearnrw.user.Subcategory.getSubcategoryTitle(), ilearnrw.user.Subcategory.setSubcategoryTitle(), ilearnrw.user.Subcategory.Subcategory(), and ilearnrw.user.Subcategory.toString().

The documentation for this class was generated from the following file:

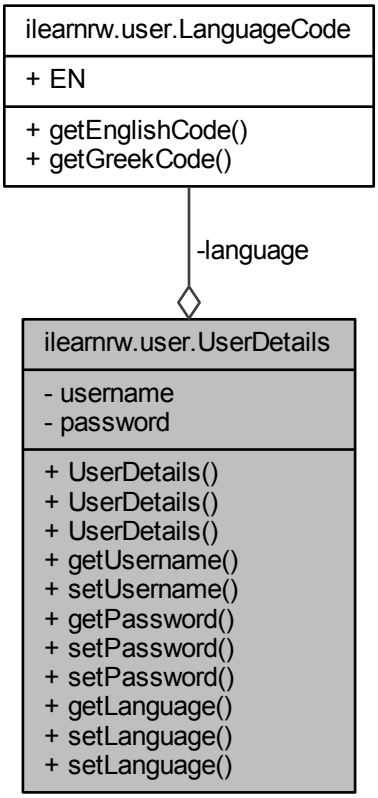
5.18 ilearnrw.user.UserDetails Class Reference

Collaboration diagram for ilearnrw.user.UserDetails:



Public Member Functions

- UserDetails (String username, int password, LanguageCode language)
- UserDetails (LanguageCode language)
- UserDetails (int userId)
- String getUsername ()
- void setUsername (String username)
- int getPassword ()
- void setPassword (int password)
- void setPassword (String password)
- LanguageCode getLanguage ()
- void setLanguage (LanguageCode language)
- void setLanguage (byte languageCode)

Private Attributes

- String username
- int password
- LanguageCode language

5.18.1 Constructor & Destructor Documentation

5.18.1.1 ilearnrw.user.UserDetails.UserDetails (String *username,* int *password,* LanguageCode *language*)

References ilearnrw.user.UserDetails.language, ilearnrw.user.UserDetails.password, and ilearnrw.user.UserDetails.username.

5.18.1.2 ilearnrw.user.UserDetails.UserDetails (LanguageCode *language*)

References ilearnrw.user.UserDetails.language, ilearnrw.user.UserDetails.password, and ilearnrw.user.UserDetails.username.

5.18.1.3 ilearnrw.user.UserDetails.UserDetails (int *userId*)

References ilearnrw.user.LanguageCode.GR, ilearnrw.user.UserDetails.language, ilearnrw.user.UserDetails.password, and ilearnrw.user.UserDetails.username.

5.18.2 Member Function Documentation

5.18.2.1 LanguageCode ilearnrw.user.UserDetails.getLanguage ( )

References ilearnrw.user.UserDetails.language.

5.18.2.2 int ilearnrw.user.UserDetails.getPassword ( )

Returns

the hash value of the user's password

References ilearnrw.user.UserDetails.password.

5.18.2.3 String ilearnrw.user.UserDetails.getUsername ( )

References ilearnrw.user.UserDetails.username.

5.18.2.4 void ilearnrw.user.UserDetails.setLanguage (LanguageCode *language*)

Parameters

the	language code as a enum item

References ilearnrw.user.UserDetails.language.

5.18.2.5 void ilearnrw.user.UserDetails.setLanguage (byte *languageCode*)

Parameters

the	language code as a enum item

References ilearnrw.user.LanguageCode.EN, ilearnrw.user.LanguageCode.getEnglishCode(), ilearnrw.user.LanguageCode.GR, and ilearnrw.user.UserDetails.language.

5.18.2.6 void ilearnrw.user.UserDetails.setPassword (int *password*)

Parameters

the	hash value of the users password

References ilearnrw.user.UserDetails.password.

5.18.2.7 void ilearnrw.user.UserDetails.setPassword (String *password*)

Parameters

the	user's password as a string

5.18.2.8 void ilearnrw.user.UserDetails.setUsername (String *username*)

References ilearnrw.user.UserDetails.username.

5.18.3 Member Data Documentation

5.18.3.1 LanguageCode ilearnrw.user.UserDetails.language [private]

Referenced by ilearnrw.user.UserDetails.getLanguage(), ilearnrw.user.UserDetails.setLanguage(), and ilearnrw.user.UserDetails.UserDetails().

5.18.3.2 int ilearnrw.user.UserDetails.password [private]

Referenced by ilearnrw.user.UserDetails.getPassword(), ilearnrw.user.UserDetails.setPassword(), and ilearnrw.user.UserDetails.UserDetails().

5.18.3.3 String ilearnrw.user.UserDetails.username [private]

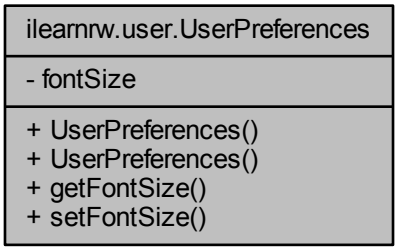
Referenced by ilearnrw.user.UserDetails.getUsername(), ilearnrw.user.UserDetails.setUsername(), and ilearnrw.-user.UserDetails.UserDetails().

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/UserDetails.java

5.19 ilearnrw.user.UserPreferences Class Reference

Collaboration diagram for ilearnrw.user.UserPreferences:



Public Member Functions

- UserPreferences ()
- UserPreferences (int fontSize)
- int getFontSize ()
- void setFontSize (int fontSize)

Private Attributes

- int fontSize

5.19.1 Constructor & Destructor Documentation

5.19.1.1 ilearnrw.user.UserPreferences.UserPreferences ( )

References ilearnrw.user.UserPreferences.setFontSize().

5.19.1.2 ilearnrw.user.UserPreferences.UserPreferences (int *fontSize*)

References ilearnrw.user.UserPreferences.setFontSize().

5.19.2 Member Function Documentation

5.19.2.1 int ilearnrw.user.UserPreferences.getFontSize ( )

References ilearnrw.user.UserPreferences.fontSize.

5.19.2.2 void ilearnrw.user.UserPreferences.setFontSize (int *fontSize*)

References ilearnrw.user.UserPreferences.fontSize.

Referenced by ilearnrw.user.UserPreferences.UserPreferences().

5.19.3 Member Data Documentation

5.19.3.1 int ilearnrw.user.UserPreferences.fontSize [private]

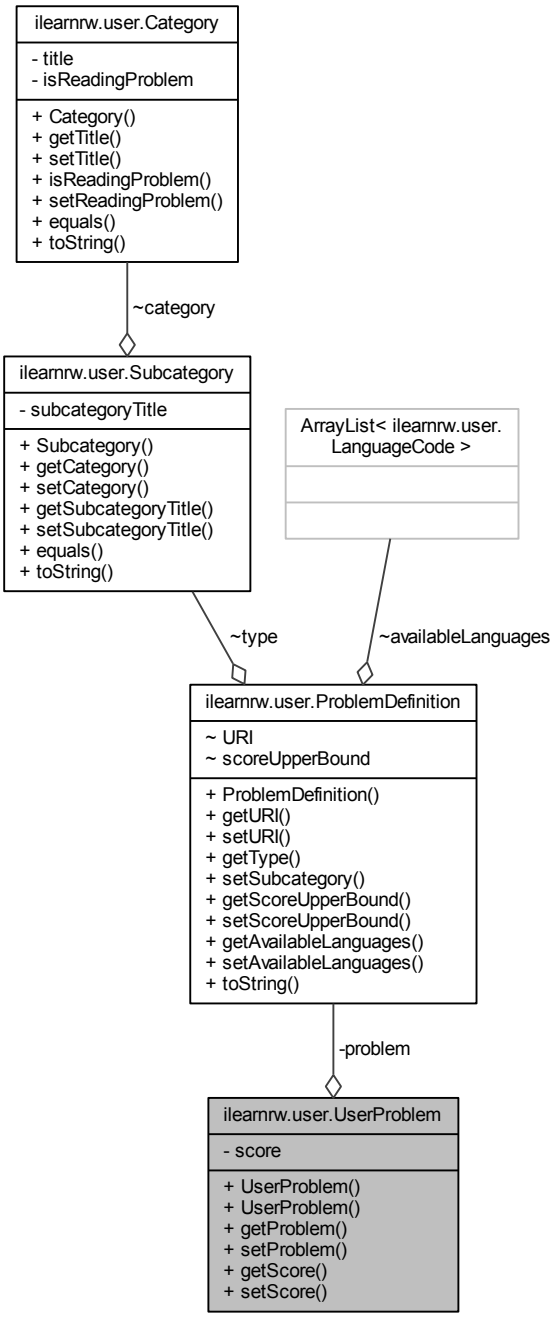
Referenced by ilearnrw.user.UserPreferences.getFontSize(), and ilearnrw.user.UserPreferences.setFontSize().

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/UserPreferences.java

5.20 ilearnrw.user.UserProblem Class Reference

Collaboration diagram for ilearnrw.user.UserProblem:



Public Member Functions

- UserProblem (ProblemDefinition problem, int score)
- UserProblem (ProblemDefinition problem)
- ProblemDefinition getProblem ()

- void setProblem (ProblemDefinition problem)
- int getScore ()
- void setScore (int score)

Private Attributes

- ProblemDefinition problem
- int score

5.20.1 Constructor & Destructor Documentation

5.20.1.1 ilearnrw.user.UserProblem.UserProblem (ProblemDefinition *problem,* int *score*)

References ilearnrw.user.UserProblem.problem, and ilearnrw.user.UserProblem.score.

5.20.1.2 ilearnrw.user.UserProblem.UserProblem (ProblemDefinition *problem*)

References ilearnrw.user.ProblemDefinition.getScoreUpperBound(), and ilearnrw.user.UserProblem.problem.

5.20.2 Member Function Documentation

5.20.2.1 ProblemDefinition ilearnrw.user.UserProblem.getProblem ( )

Returns

the ProblemDefintion of the user's problem

References ilearnrw.user.UserProblem.problem.

5.20.2.2 int ilearnrw.user.UserProblem.getScore ( )

Returns

the frequency that the user does errors related to this problem

References ilearnrw.user.UserProblem.score.

5.20.2.3 void ilearnrw.user.UserProblem.setProblem (ProblemDefinition *problem*)

References ilearnrw.user.UserProblem.problem.

5.20.2.4 void ilearnrw.user.UserProblem.setScore (int *score*)

References ilearnrw.user.UserProblem.score.

5.20.3 Member Data Documentation

5.20.3.1 ProblemDefinition ilearnrw.user.UserProblem.problem [private]

Referenced by ilearnrw.user.UserProblem.getProblem(), ilearnrw.user.UserProblem.setProblem(), and ilearnrw.user.UserProblem.UserProblem().

5.20.3.2 int ilearnrw.user.UserProblem.score [private]

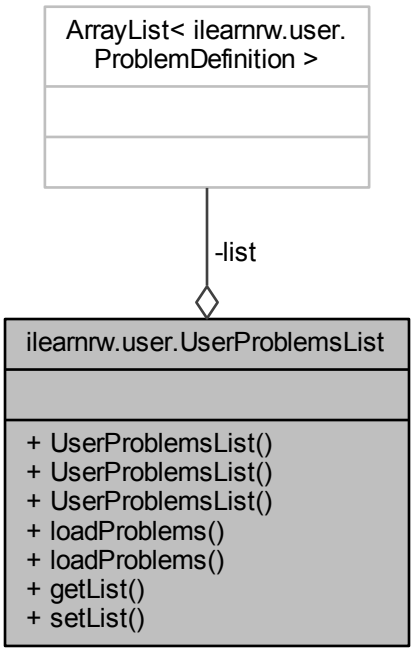
Referenced by ilearnrw.user.UserProblem.getScore(), ilearnrw.user.UserProblem.setScore(), and ilearnrw.user.-UserProblem.UserProblem().

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/UserProblem.java

5.21 ilearnrw.user.UserProblemsList Class Reference

Collaboration diagram for ilearnrw.user.UserProblemsList:



Public Member Functions

- UserProblemsList (int userId)
- UserProblemsList (LanguageCode lc)
- UserProblemsList (ArrayList< ProblemDefinition > list)
- void loadProblems (LanguageCode lc)
- void loadProblems (int userId)
- ArrayList< ProblemDefinition > getList ()
- void setList (ArrayList< ProblemDefinition > list)

Private Attributes

- ArrayList< ProblemDefinition > list

5.21.1 Constructor & Destructor Documentation

5.21.1.1 ilearnrw.user.UserProblemsList.UserProblemsList (int *userId*)

References ilearnrw.user.UserProblemsList.list, and ilearnrw.user.UserProblemsList.loadProblems().

5.21.1.2 ilearnrw.user.UserProblemsList.UserProblemsList (LanguageCode *lc*)

References ilearnrw.user.UserProblemsList.list, and ilearnrw.user.UserProblemsList.loadProblems().

5.21.1.3 ilearnrw.user.UserProblemsList.UserProblemsList (ArrayList< ProblemDefinition > *list*)

References ilearnrw.user.UserProblemsList.list.

5.21.2 Member Function Documentation

5.21.2.1 ArrayList<ProblemDefinition> ilearnrw.user.UserProblemsList.getList ( )

References ilearnrw.user.UserProblemsList.list.

Referenced by ilearnrw.user.Tester.main().

5.21.2.2 void ilearnrw.user.UserProblemsList.loadProblems (LanguageCode *lc*)

References ilearnrw.user.LanguageCode.EN, ilearnrw.user.ProblemDefinition.getAvailableLanguages(), ilearnrw.user.LanguageCode.GR, and ilearnrw.user.UserProblemsList.list.

Referenced by ilearnrw.user.UserProblemsList.UserProblemsList().

5.21.2.3 void ilearnrw.user.UserProblemsList.loadProblems (int *userId*)

References ilearnrw.user.LanguageCode.EN, ilearnrw.user.LanguageCode.GR, and ilearnrw.user.UserProblemsList.list.

5.21.2.4 void ilearnrw.user.UserProblemsList.setList (ArrayList< ProblemDefinition > *list*)

References ilearnrw.user.UserProblemsList.list.

5.21.3 Member Data Documentation

5.21.3.1 ArrayList<ProblemDefinition> ilearnrw.user.UserProblemsList.list [private]

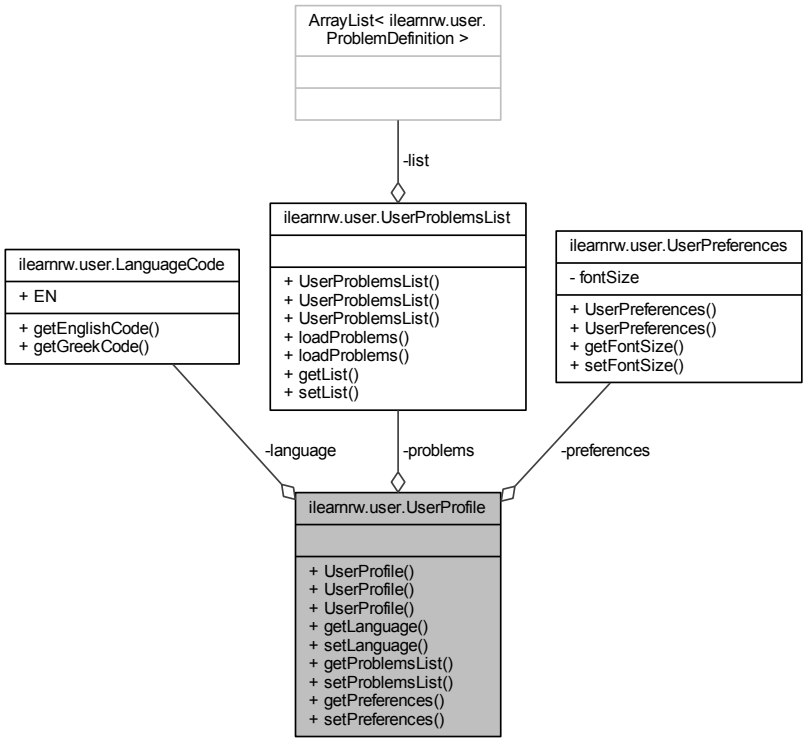
Referenced by ilearnrw.user.UserProblemsList.getList(), ilearnrw.user.UserProblemsList.loadProblems(), ilearnrw.user.UserProblemsList.setList(), and ilearnrw.user.UserProblemsList.UserProblemsList().

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/UserProblemsList.java

5.22 ilearnrw.user.UserProfile Class Reference

Collaboration diagram for ilearnrw.user.UserProfile:



Public Member Functions

- UserProfile (LanguageCode language, UserProblemsList problems, UserPreferences preferences)
- UserProfile (LanguageCode language)
- UserProfile (int userId)
- LanguageCode getLanguage ()
- void setLanguage (LanguageCode language)
- UserProblemsList getProblemsList ()
- void setProblemsList (UserProblemsList problems)
- UserPreferences getPreferences ()
- void setPreferences (UserPreferences preferences)

Private Attributes

- LanguageCode language
- UserProblemsList problems
- UserPreferences preferences

5.22.1 Constructor & Destructor Documentation

5.22.1.1 ilearnrw.user.UserProfile.UserProfile (LanguageCode *language,* UserProblemsList *problems,* UserPreferences *preferences*)

References ilearnrw.user.UserProfile.language, ilearnrw.user.UserProfile.preferences, and ilearnrw.user.UserProfile.problems.

5.22.1.2 ilearnrw.user.UserProfile.UserProfile (LanguageCode *language*)

References ilearnrw.user.UserProfile.language.

5.22.1.3 ilearnrw.user.UserProfile.UserProfile (int *userId*)

References ilearnrw.user.LanguageCode.EN, ilearnrw.user.UserProfile.language, ilearnrw.user.UserProfile.preferences, and ilearnrw.user.UserProfile.problems.

5.22.2 Member Function Documentation

5.22.2.1 LanguageCode ilearnrw.user.UserProfile.getLanguage ( )

References ilearnrw.user.UserProfile.language.

5.22.2.2 UserPreferences ilearnrw.user.UserProfile.getPreferences ( )

References ilearnrw.user.UserProfile.preferences.

5.22.2.3 UserProblemsList ilearnrw.user.UserProfile.getProblemsList ( )

References ilearnrw.user.UserProfile.problems.

Referenced by ilearnrw.user.Tester.main().

5.22.2.4 void ilearnrw.user.UserProfile.setLanguage (LanguageCode *language*)

References ilearnrw.user.UserProfile.language.

5.22.2.5 void ilearnrw.user.UserProfile.setPreferences (UserPreferences *preferences*)

References ilearnrw.user.UserProfile.preferences.

5.22.2.6 void ilearnrw.user.UserProfile.setProblemsList (UserProblemsList *problems*)

References ilearnrw.user.UserProfile.problems.

5.22.3 Member Data Documentation

5.22.3.1 LanguageCode ilearnrw.user.UserProfile.language [private]

Referenced by ilearnrw.user.UserProfile.getLanguage(), ilearnrw.user.UserProfile.setLanguage(), and ilearnrw.user.UserProfile.UserProfile().

5.22.3.2 UserPreferences ilearnrw.user.UserProfile.preferences [private]

Referenced by ilearnrw.user.UserProfile.getPreferences(), ilearnrw.user.UserProfile.setPreferences(), and ilearnrw.user.UserProfile.UserProfile().

5.22.3.3 UserProblemsList ilearnrw.user.UserProfile.problems [private]

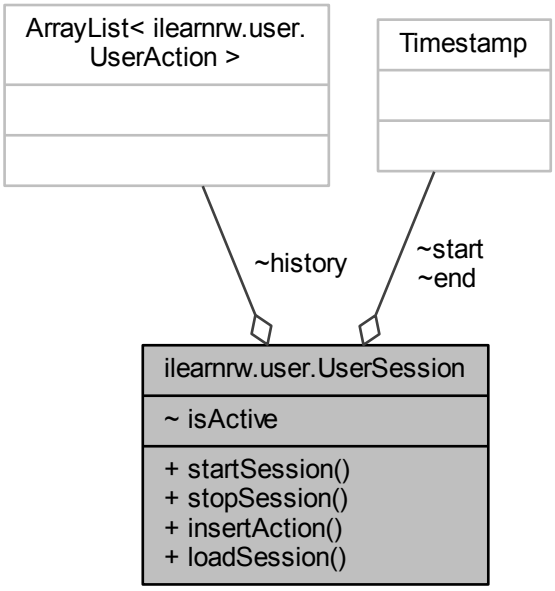
Referenced by ilearnrw.user.UserProfile.getProblemsList(), ilearnrw.user.UserProfile.setProblemsList(), and ilearnrw.user.UserProfile.UserProfile().

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/UserProfile.java

5.23 ilearnrw.user.UserSession Class Reference

Collaboration diagram for ilearnrw.user.UserSession:



Public Member Functions

- void startSession ()
- void stopSession ()
- void insertAction (UserAction x) throws IlearnException
- void loadSession (int userId)

Package Attributes

- boolean isActive

- Timestamp start
- Timestamp end
- ArrayList< UserAction > history

5.23.1 Member Function Documentation

5.23.1.1 void ilearnrw.user.UserSession.insertAction (UserAction *x*) throws IlearnException

References ilearnrw.user.UserSession.history, and ilearnrw.user.UserSession.isActive.

5.23.1.2 void ilearnrw.user.UserSession.loadSession (int *userId*)

References ilearnrw.user.UserSession.history.

5.23.1.3 void ilearnrw.user.UserSession.startSession ( )

sets the timestamp and turns the boolean variable 'isActive' to true!

References ilearnrw.user.UserSession.history, ilearnrw.user.UserSession.isActive, and ilearnrw.user.UserSession.start.

5.23.1.4 void ilearnrw.user.UserSession.stopSession ( )

sets the timestamp and turns the boolean variable 'isActive' to true!

References ilearnrw.user.UserSession.end, and ilearnrw.user.UserSession.isActive.

5.23.2 Member Data Documentation

5.23.2.1 Timestamp ilearnrw.user.UserSession.end [package]

Referenced by ilearnrw.user.UserSession.stopSession().

5.23.2.2 ArrayList<UserAction> ilearnrw.user.UserSession.history [package]

Referenced by ilearnrw.user.UserSession.insertAction(), ilearnrw.user.UserSession.loadSession(), and ilearnrw.user.UserSession.startSession().

5.23.2.3 boolean ilearnrw.user.UserSession.isActive [package]

Referenced by ilearnrw.user.UserSession.insertAction(), ilearnrw.user.UserSession.startSession(), and ilearnrw.user.UserSession.stopSession().

5.23.2.4 Timestamp ilearnrw.user.UserSession.start [package]

Referenced by ilearnrw.user.UserSession.startSession().

The documentation for this class was generated from the following file:

- C:/develop/projects/ILearnRW/github/ilearnrw/src/ilearnrw/user/UserSession.java
